Veterinary Internship

The Ohio Center for Integrated Veterinary Medicine is accepting applications for a unique internship opportunity.

The intern will have scheduled mentoring, primary case responsibility, access to continuing education courses, 24-hour access to computer and library facilities. The intern will perform surgery, take some emergencies, and will concentrate on the integration of conventional medicine and surgery with alternative and complementary modalities, in an AAHA hospital.

The intern will follow a structured approach to understanding and applying innovative approaches to veterinary health care. Hospital cases will allow the intern to apply integrative medicine in a case study environment. The internship duration is 12 months.

For application procedure, please contact:
